

Chrono Trigger Novel Project Petition

Foreword

The *Chrono Trigger* Novel Project is all about the creation of a novel directly based on the hit role-playing game *Chrono Trigger*, expanding it beyond its electronic platforms and into the hands, hearts, and minds of readers everywhere. Novelizing a story such as this brings it into a whole new world of imagery and depth that both current fans and non-fans of the original game will enjoy just like any other novel full of action, fantasy, and adventure. By signing this petition, you are helping to bring the novel one step closer to being a reality. Thank you very much for your support and God bless!

-- Wayne Kramer, *Chrono Trigger* Novelist & Project Leader

Petition Statement

This petition to Square-Enix, Ltd. is hereby established for the specific purpose of requesting an exception to the copyright policy of the company to allow for the publication and allocation of a full-length novel from the storyline of *Chrono Trigger*. Signers of this petition have expressed their full support for this project and wish that the corporation would allow for Wayne Kramer, the author described at <http://www.chronotrigger.info>, to complete, in full, this novel and agree that his work is acceptable and that their confidence is existent in his ability to finish it with the descriptive clarity, event emphasis, character, dialogue, scene additions/enhancements, and fullness to which the story deserves. It is requested that Square-Enix support and accept this novel without giving up the copyrights to *Chrono Trigger*, but rather allowing the novel to be licensed and protected within it. Square-Enix should understand that this novel would be published with due credit to the game's original authors, Square-Enix, and Wayne Kramer respectfully. Signers of this petition understand that we are attempting to work with Square-Enix without harassment, obscenity, or slander, and with respect and the desire to work together. We ask that Square-Enix acknowledge the desire of *Chrono Trigger* fans to see this novel completed and that the company will take the time to visit the aforementioned website for a more detailed description of this very serious and complex project before rushing to any decisive conclusions. The signers of this petition also thank Square-Enix for great games such as *Chrono Trigger* and ask for the allowance of this story to be enhanced and taken further into the literary world with the potential success that it would carry.

Final Notes

Please feel free to distribute these petition forms as much as possible. They are also available at <http://www.chronotrigger.info> for download. If you haven't already, please take some time to visit the site and sign up with a username to help us better track the public's involvement in this effort. Once logged in, you can view the number of signatures that you have gathered and contact other users who may be gathering in your area!

All forms can be sent to the following address:

CTNP
P.O. Box 400
Henryville, IN. 47126-9998 USA
